

The Mud Grappler® provides incredible off-road traction and can handle anything you throw at it across a wide range of terrains and tyre pressures.

RIM SIZE: 20 - 22 INCH
DIAMETER: 33 - 40 INCH
WIDTH: 12.5 - 15.5 INCH
SPEED RATING: P - Q

BEST FIT?

The Mud Grappler® suits the plus-sized demands of serious off-roaders seeking extreme diameter tyres with an effective sidewall ratio, perfect for a heavily-modified Toyota HiLux, Landcruiser or Prado, Nissan Patrol or Navara, Mitsubishi Pajero or Triton, Ford Ranger or Everest and Isuzu D-Max or MU-X.

EXTREME-MUD-TERRAIN LIGHT-TRUCK 4X4 TYRE

DUAL SIDEWALL DESIGNS

Each Grappler has two sidewall designs so you can choose how your tyres look. On the Mud Grappler®, one side has lizard skin side lugs and the other has plain side lugs.

HIGH VOID RATIO

A high void ratio between the tread blocks efficiently clears mud and dirt from the pattern to provide excellent traction in extreme terrain.

AGGRESSIVE SIDEWALL LUGS

The Mud Grappler® has one of the most aggressive and functional sidewall designs on the market. Massive sidewall lugs provide additional biting edges, which is especially helpful in rocky terrain. The additional lug depth also provides puncture resistance.

PUNCTURE RESISTANCE

3-ply polyester sidewall construction and a high-strength steel belt tread package offers exceptional puncture resistance.

OFF-ROAD TRACTION

The Mud Grappler's® tread blocks are arranged to keep part of the lugs biting the ground at all times, maximising traction in any terrain.
