

Available in both passenger and light-truck constructions, the Nitto Terra Grappler® blends off-road performance in wet and dry conditions with on-road comfort and quietness.

RIM SIZE: 16 - 20 INCH
SERIES: 45 - 75
WIDTH: 265 - 305
SPEED RATING: Q - T

BEST FIT?

The Terra Grappler® suits daily drivers who like to head off the beaten track from time to time, perfect for the Toyota HiLux, Landcruiser or Prado, Nissan Patrol or Navara, Mitsubishi Pajero or Triton, Ford Ranger or Everest and Isuzu D-Max or MU-X.

ALL-TERRAIN LIGHT-TRUCK 4X4 TYRE

DUAL SIDEWALL DESIGNS

Each Grappler has two sidewall designs so you can choose how your tyres look. On the Terra Grappler®, one side has solid-outlined lettering and the other has striped lettering.

MULTI-PURPOSE TREAD

Tread pattern void ratio has been balanced for off-road traction and on-road handling. Reinforced coupling joints between the outermost and central tread blocks minimise excessive tread flex, maximising traction and steering response while encouraging even wear.

HIGH-DENSITY SIPING

Siping helps resist hydroplaning by cutting through pockets of water on road surfaces. Deep sipes and lateral voids effectively channel water away to maximise wet traction.

ALL-TERRAIN VERSATILITY

Angled lateral voids channel water away in wet conditions and provide forward stability in dry conditions.

OFF-ROAD PERFORMANCE

Staggered shoulder lugs provide additional biting edges in off-road conditions, especially in deep sand and loose dirt.
